Strategic Plan

**Vision 2015** 

The journey to becoming the best urban district in the nation begins with the first step --- Vision 2015!

Deleted: s

Formatted: Font: 20 pt

To Our Community,

The Jefferson County Public School District is at a critical point in our history. On <u>INSERT DATE</u>, the Jefferson County Board of Education adopted this Strategic Plan to set a course for this system through 2015.

This is the result of months of work that started in July when we commissioned a Curriculum Management Audit, which provided us with an external objective view of how well our current systems and structures support student achievement. Auditors spoke with community leaders, employees, parents, and students. From that feedback, the first priority was to improve the current central office organizational structure to better support schools. These reviews compared our current status against audit standards which reflect the characteristics of a high performing organization. Those reviews provided us with very specific actions to take to ameliorate any discrepancies between what where we are and the standards to which we aspire. Those recommendations are an integral part of this plan.

Why do we need a Strategic Plan? The governance role of the Board of Education is to set the direction for the system and to monitor the progress. Every dollar we spend, including every position, needs to be focused on the goals and strategies that will best prepare all of our students for college and career and life in a globally competitive environment. This plan makes our priorities clear, ensures full transparency, and will hold us accountable through measurable outcomes for maintaining a focus on what will benefit our students. This strategic plan will guide and focus our daily work. It will align our efforts to successfully reach our Commonwealth Commitment to the Kentucky Department of Education and our commitment to the 55K Degrees program.

The success of this plan calls for a commitment from the community and families to work with us as partners to ensure that every student gets the extended learning time and the support needed to master the learning that is expected for every student.

WHEN we work together and implement this plan, we will increase student learning and ensure that "All JCPS students graduate prepared to reach their full potential and contribute to our society throughout life." Our expectations for our students, our school system, and our community need to be high. We should settle for nothing less than Jefferson County Public Schools being the best urban school system in the nation. Our students deserve that.

We invite you to commit with us!

Jefferson County Board of Education and Superintendent Donna M. Hargens

# **VISION 2015**

# All JCPS students graduate prepared to reach their full potential and contribute to our society throughout life.

### **MISSION**

To provide relevant, comprehensive, quality instruction in order to educate, prepare, and inspire our students to learn.

### **CORE VALUES**

These values guide our work......

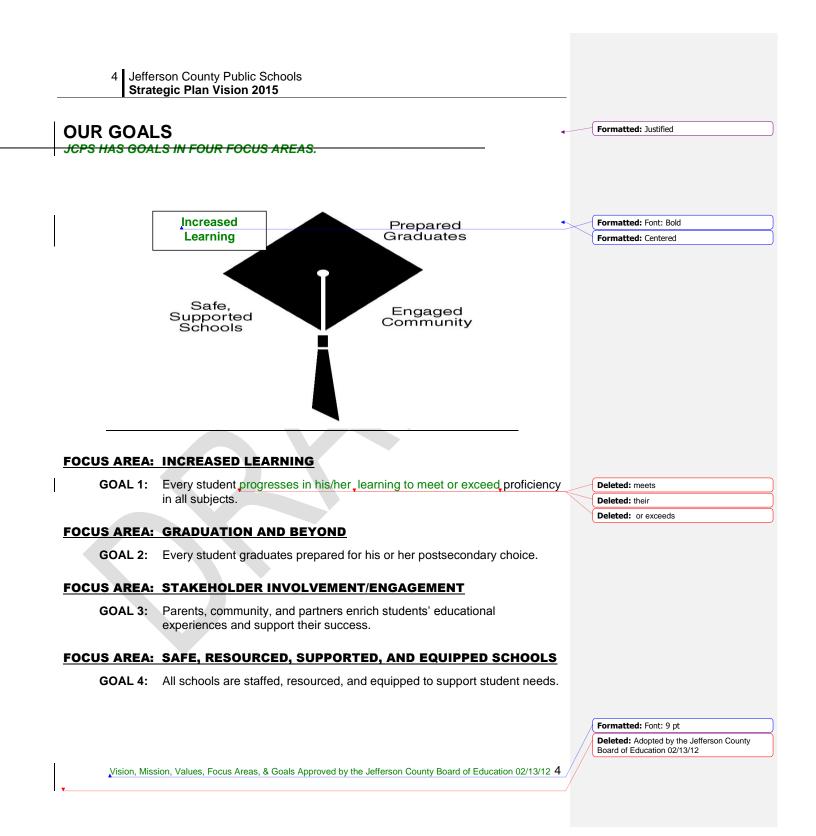

- 1. Our students are cared for and treated as if they are our own.
- 2. Children learn differently.
- 3. What happens in the classroom matters the most.
- 4. The differences of each are assets of the whole.
- 5. High-quality teaching is the most powerful tool for helping students reach high standards.
- 6. Leadership and innovation are essential to prepare students for their future.
- 7. Talents and resources are used wisely to benefit students.
- 8. Partnerships among schools, families, and community are important for the health and wellbeing of our students.
- 9. Adults model integrity, respect, creativity, and accountability.

#### FOCUS AREA: STAKEHOLDER INVOLVEMENT/ENGAGEMENT

**GOAL 3:** Parents, community, and partners enrich students' educational experiences and support their success.

#### STRATEGIES:

- 3.1. Design aligned, data-driven, and sustainable planning processes to provide a coherent focus to achieve the vision of the Board of Education. Align the CDIP (Comprehensive District Improvement Plan) and CSIP (Comprehensive School Improvement Plan) with the Strategic Plan and ensure deep implementation of these strategies so they impact the work on each student's desk.
- 3.2 Increase the number of out-of-school hours spent by students scoring at the novice and apprentice levels in reading, math, science, social studies, writing, ACT, and end of course subjects (Biology, Algebra II, English II, and U.S. History) including using technological tools, such as Successmaker and Study Island.
- 3.3 Increase the number of community-based opportunities/experiences to support student learning including service learning, the arts, and enrichment experiences). Increase the use of the Parent Portal.
- 3.4 Think Big! Plan with parents, teachers, administrators and community stakeholders and seek support and funding for a major initiative(s) that will impact student learning. Design community engagement, "a movement" around increased learning time that includes tracking family activities that support learning (Audit action 9.9)
- 3.5 Collaborate with PTA, JCTA, JCASA, community organizations, and higher education to increase the "concerted cultivation mindset" among parents in the community so that they become our partners in the "educational cultivation" of our children.
- 3.6 Increase the quality of teacher training and learning interventions by increasing the number of partnerships between our higher education partners and specific schools.
- 3.7 Build capacity for schools to develop Professional Learning Communities with cohorts of teachers and administrators who share a collective vision for and shared ownership of achievement for each child.
  - 3.8 Celebrate learning ---- the successes of our students, and the contributions of teachers, administrators, parents, and community stakeholders.
