

The Poster Child of Charter Schools

Behind the Pretty Picture are the REAL NUMBERS!

“According to the Illinois Interactive School Report Card, there were 166 freshmen enrolled in 2007, Urban Prep’s first year. Of these original freshmen, the Tribune reports that 107 are graduating seniors. This yields an overall **school graduation rate of 64%**, or nearly **6 points lower than the average district rate of 69.8%**.”

With these new figures, the overall graduation rate at Urban Prep goes down to 57%. So, it begins to look more and more as though Urban Prep’s real “accomplishment” is refusing to graduate any senior who has not been accepted into college.” - Julie Woestehoff, Chicago Examiner, July 9, 2010

Urban Prep Charter School By the Numbers

"I will tell you that in that graduating class there have been nine students who were expelled. They were all expelled for very severe discipline reasons."

- Urban Prep founder Tim King on the 2011 Graduating Class.
