For Additional Definitions and Roles, please see 704KAR 3:370 Professional Growth and Effectiveness System

Intensive Support: At any time, when significant deficiencies in work performance have been observed, an employee may be placed in Intensive Support, as specified in the JCBE-JCTA labor agreement. At that time, the district-designed process will be instituted which includes a specific timeline for observations, support, and conferences. At the end of the specified timeline, the evaluator will provide a written summary of the conferences to the employee.

PGES Implementation for 2015-16

For 2015-16, JCPS will implement the Kentucky Professional Growth and Effectiveness System (PGES) in accordance with state statutes and regulations as outlined in this Certified Evaluation Plan (CEP). For those individuals in TPGES or PPGES, consequences related to personnel decisions and state accountability may now be incorporated. For 2015-16, those individuals in the Other Professional Growth and Effectiveness System (OPGES), shall implement the KY PGES without consequences for personnel decisions and state accountability. JCPS will operate using a "dual" system in accordance with current comprehensive labor agreement and evaluation procedures regarding evaluating other professionals in their summative year of evaluation in 2015-16.

OPGES Differences

Unless otherwise noted within the text of this CEP, Other Professionals will follow similar timelines and protocols of those in TPGES (although tailored to their respective frameworks and forms).

The Kentucky Framework for Teaching with Specialist Frameworks for Other Professionals

The Kentucky Framework for Teaching is designed to support student achievement and professional practice through the domains of:

Framework for Teaching

Planning and Preparation
Classroom Environment
Instruction
Professional Responsibilities

Specialist Frameworks for Other Professionals

Planning and Preparation
Environment
Instruction/Delivery of Service
Professional Responsibilities

The Frameworks also include themes such as equity, cultural competence, high expectations, developmental appropriateness, accommodating individual needs, effective technology integration, and student assumption of responsibility. They provide structure for feedback for continuous improvement through individual goals that target student and professional growth, thus supporting overall school improvement. Evidence documenting professional practice is situated within one or more of the four domains of the framework. Performance is rated for each component according to four performance levels: Ineffective, Developing, Accomplished, and Exemplary. The summative rating is a holistic representation of performance, combining data from multiple sources of evidence across each domain.

The use of professional judgment based on multiple sources of evidence promotes a holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators also take into account how educators respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual educator performance, such as: school-specific priorities that may drive practice in one domain, an educator's number of goals, experience level and/or leadership opportunities, and contextual variables that may impact the learning environment, such as unanticipated outside events or traumas.

Evaluators must use the following categories of evidence in determining overall ratings:

Required Sources of Evidence

- Professional Growth Planning and Self-Reflection
- Observation
- Student Voice
- Student Growth Goals and/or Median Student Growth Percentiles (4-8 - Math & ELA)

Local District Decision

- ✓ Other Measures of Student Learning
- ✓ Products of Practice
- ✓ Other Sources

All components and sources of evidence related supporting an educator's professional practice and student growth ratings will be completed and documented to inform the Overall Performance Category. All Summative Ratings will be recorded in the department-approved technology platform.

Professional Practice

Self-Reflection and Professional Growth Planning

Reflective practices and professional growth planning are iterative processes. The teacher (1) reflects on his or her current growth needs based on multiple sources of data and identifies an area or areas for focus; (2) collaborates with his or her administrator to develop a professional growth plan and action steps; (3) implements the plan; (4) regularly reflects on the progress and impact of the plan on his or her professional practice; (5) modifies the plan as appropriate; (6) continues implementation and ongoing reflection; (7) and, finally, conducts a summative reflection on the degree of goal attainment and the implications for next steps.

The Professional Growth Plan addresses realistic, focused, and measurable professional goals. The plan connects data from multiple sources including classroom observation feedback, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection. In collaboration with the administrators, teachers identify explicit goals which drive the focus of professional growth activities, support, and on-going reflection.

Required

- ♦ **All Teachers and Other Professionals participate in self-reflection and professional growth planning each year.**

Local District Decision

- ✓ **Describe the process the district will use to document the development, approval and monitoring of self-reflection and the professional growth plan.**
- ✓ **Describe any differences for other professionals.**
- ✓ **Establish a timeline for ongoing Self-Reflection (include information to address late hires).**
- ✓ **Establish a timeline for the Professional Growth Plan (include information to address late hires).**
- ♦ All teachers and other professionals will complete a Self-Reflection and Professional Growth Plan (PGP), the latter of which is produced in consultation with the evaluator. Both shall be completed within the first 30 calendar days of employment. This includes late hires. While self-reflection is ongoing, it shall occur formally in the Fall and in the Spring. The PGP must be recorded and approved via the department-approved technology platform. A paper copy of the PGP shall be provided to the evaluatee by the evaluator. The PGP may be revised and re-submitted for approval. This process will be completed on an annual basis.

Observation

The observation process is one source of evidence to determine educator effectiveness that includes supervisor and peer observation for each certified teacher and other professional. Both peer and supervisor observations use the same instruments. The supervisor observation provides *documentation and feedback* to measure the effectiveness of professional practice. Only the supervisor observation will be used to inform a summative rating. Peer observation is used only for formative feedback on professional practice in a collegial atmosphere of trust and common purpose. NO ratings are given by the peer observer. The rationale for each type of observation is to encourage continued professional learning in teaching and learning through critical reflection.

Observation Model

The observation model must fulfill the following minimum criteria:

Required

- ◆ **Four observations in the summative cycle. A minimum of three observations conducted by the supervisor and one observation conducted by the peer.**
- ◆ **The required peer observation must occur in the final year of the summative cycle.**
- ◆ **Final observation is conducted by the supervisor and is a full observation.**
- ◆ **Address any differences for Other Professionals.**

Local District Decision

- ✓ **Describe how the evidences of observations will be documented.**
 - ◆ Observers will conduct three mini observations (two by the supervisor and one by the peer observer) of approximately 20-30 minutes each. Because these are shorter sessions, the supervisor will make note of the components observed in order to identify "look fors" in the next mini observation by the supervisor. The final observation is a formal observation conducted by the supervisor consisting of a full class or lesson observation.
 - ◆ Other professionals may use a similar process above to those in TPGES or may use modified "site-visit" approach if more fitting to the appropriate OPGES framework and the role of the observee.
 - ◆ All observations must be documented (evidence, feedback) on district-approved observation forms.

Observation Schedule

Required

- ◆ **Observations may begin after the evaluation training takes place within 30 calendar days of reporting for employment each school year.**

Local District Decision

- ✓ **Clearly define the observation schedule for Teachers and Other Professionals on a one year summative cycle.**
- ✓ **Clearly define the observation schedule for Teachers and Other Professionals on a three year summative cycle.**
- ✓ **Describe the observation schedule or process to address late hires.**
- ◆ All observations are conducted openly and with full knowledge of the teacher or other professional being observed.
- ◆ At least one full observation by the evaluator will be scheduled.
- ◆ The peer observation will always be scheduled between the peer observer and observee.
- ◆ The peer observation must occur during Observation Windows 2 or early in Window 3 before the full observation by the supervisor.
- ◆ Teachers or other professionals who miss 60 or more consecutive contract days (late hires/individuals on leave) may have one fewer evaluator mini-observation.
- ◆ Teachers or other professionals who miss 90 or more consecutive contract days (late hires/individuals on leave) may have their summative evaluation postponed until the following year.

For those teachers or other professionals on a continuing (tenured) contract, the cycle is a three (3) year cycle, consisting of at least the following:

CHART 1.0 Tenured Teachers or Other Professionals

| | | | |
|--------------------|--------------------------------------|-----------------------------|--|
| Year 1 | Mini Observation | Supervisor | Observation Window - October 1 st – April 15 th |
| Year 2 | Mini Observation | Supervisor | Observation Window - October 1 st – April 15 th |
| Year 3 – Summative | Mini Observation Full Observation | Peer Observer Supervisor | Observation Window - December 1 st – February 14 th Observation Window - February 15 th – April 15 th |

For those teachers or other professionals on a limited (non-tenured) contract or those teachers whose most recent overall performance rating places them on a one year PGP and evaluation cycle, the cycle is a one (1) year cycle, consisting of at least the following:

CHART 1.1 Non-Tenured Teachers (or Tenured Teachers or Other Professionals on One Year PGP and Summative Cycle)

| | | | |
|------------|-----------------------------|-----------------------------|--|
| Every Year | Mini Observation | Supervisor | Observation Window 1 - October 1 st – November 30 th |
| Every Year | Supervisor Peer Observer | Supervisor Peer Observer | Observation Window 2 - December 1 st – February 14 th |
| Every Year | Full Observation | Supervisor | Observation Window 3 - February 15 th – April 15 th |

*Observations by evaluators must be documented on district-approved observation forms.

Peer Observation

A Peer Observer observes, collects, shares evidence, and provides feedback for formative purposes only. Peer Observers do not score a teacher's practice, nor is peer observation data shared with anyone other than the observee unless permission is granted. A peer observer is trained certified school personnel.

Required

- ◆ **All Teachers and Other Professionals will receive a peer observation in their summative year.**
- ◆ **All Peer Observers participating during the summative year observations will complete the department approved training once every three years.**
- ◆ **All peer observation documentation will be accessed only by the observee.**

Local District Decision

- ✓ **Describe how the evidences of Peer Observations will be documented.**
 - ✓ **Describe how Peer Observers will be identified and complete department approved training.**
 - ✓ **Describe how Peer Observers will be assigned to teachers and other professionals.**
 - ✓ **Identify any differences for other professionals or alternative settings.**
-
- All teachers or other professionals are eligible to participate in the department-approved peer observation certification training to increase understanding of the peer observation component.
 - Peer observers must have completed a minimum of three years of teaching or other professional experience.
 - Peer observers must complete the state approved peer observation certification training. Completion of training will be monitored by the building principal or designee.
 - Each year the principal, in collaboration with the school PGES Teacher Leader Implementation Team, will select and assign peer observers.
 - Peer observers shall have no more than five teachers to observe, and the recommendation is three or fewer.
 - Peer observers will be in the same PGES framework as the peer observee.
 - Peer Observers for other professionals may use a similar process to those in TPGES or may use a modified "site-visit" approach if more fitting to the appropriate OPGES framework and the role of the observee.
 - Only time and date of peer observations and conferences must be recorded on the department-approved technology platform.
 - All peer observation documentation (evidence, feedback, communications) will be shared between, and accessed only by, the observee and peer observer.
 - Peer observation feedback must not be shared with the administrator and is never used as part of the evaluation.

Observation Conferencing

Observers will adhere to the following observation conferencing requirements for teachers and other professionals:

Required

- ◆ **Conduct observation post-conference within five working days following each observation.**

Local District Decision

- ◆ **If pre-conference is required, describe the expectations.**
 - Describe the differences that may exist in pre-conferencing expectations for mini or full observations (include differences for peer observations).
 - Identify any differences that may exist for in pre-conference expectations for Other Professionals observations.
 - Identify timelines for any required pre-conferences.
- ◆ **Describe the post-observation conference requirements.**
 - Describe the differences that may exist in post-conferencing expectations for mini or full observations (include differences for peer observations).
 - Identify any differences that may exist for in post-conference expectations for Other Professionals observations.
- ◆ The summative evaluation conference shall be held at the end of the summative evaluation cycle prior to May 1.
- ◆ A post-observation conference is not a summative evaluation conference.
- ◆ Pre-observation conferences, between the administrator and teacher, if conducted, will be held one to three school days prior to the observation. The pre-observation conference may be conducted in person, electronically, or not at all. Post-observation conferences with the administrator and the teacher will be conducted in person within five school days after the observation.
- ◆ Either teacher or administrator may request a pre-observation conference that must be conducted if requested.
- ◆ The peer observer's pre-observation conference must be conducted in person or electronically one to three school days prior to the observation. Post-observation conferences with the peer observer and the teacher will be conducted in person within five school days after the observation.
- ◆ All of this information will be included in the initial meeting regarding the evaluation process each year so that all participants are aware of the evaluation process for their school. Each teacher will sign an evaluation statement indicating they have received and understand the evaluation procedures (Evaluation Form). Principals will maintain records of this meeting to include a teacher sign-in sheet, a meeting agenda, and the evaluation statement signed by each teacher.

Observer Certification

All administrators serving as a primary evaluator must complete the Initial Certified Evaluation Training prior to conducting observations for the purpose of evaluation.

To ensure consistency of observations, evaluators must also be trained, tested and approved using the Proficiency Observation Training for the current approved state platform. The system allows observers to develop a deep understanding of how the four domains of the Kentucky Framework for Teaching (FFT) are applied in observation. There are three sections of the proficiency system:

- Framework for Teaching Observer Training
- Framework for Teaching Scoring Practice
- Framework for Teaching Proficiency Assessment

Required

The established cycle for observation certification is as follows:

| | |
|--------|-----------------|
| Year 1 | Certification |
| Year 2 | Calibration |
| Year 3 | Calibration |
| Year 4 | Recertification |

- ♦ **Only supervisors who have passed the proficiency assessment can conduct mini and full observations for the purpose of evaluation. In the event that a supervisor has yet to complete the proficiency assessment, or if the supervisor does not pass the assessment, the district will provide the following supports:**
 - **Observation data provided by a substitute observer is considered a valid source of evidence only if the supervisor is present in the observation.**
 - **In cases where the supervisor is not certified through the proficiency system and is therefore unable to conduct observations during the observation window, the district will determine how to ensure teachers and other professionals have access to observations by making the following local decisions:**

Local District Decision

- ✓ **Describe the process to ensure all supervisors obtain the initial certified evaluation training.**
- ✓ **Describe the process used to ensure all supervisors obtain observation certification.**
- ✓ **Describe support procedures for individuals who are not certified.**
- ✓ **Describe the process used to ensure teachers will have access to certified observers in cases where the supervisor is not certified.**
- ✓ **Describe the process used to ensure late hire supervisors obtain certification.**
- All certified evaluation supervisors will complete observation certification and initial certified evaluation training. The completion of this certification and training will be monitored by the

Director of Administrator Recruitment & Development and the Achievement Area Assistant Superintendents.

- All late hire, certified evaluation supervisors will complete observation certification and initial certified evaluation training within the first 45 calendar days of employment.
- If the building supervisor is not certified, the Achievement Area Assistant Superintendent will assign a certified observer to a school until the building supervisor completes certification.
- The district will provide technology support and make available study partners for the uncertified observers to aid in the successful completion of the certification process.

Observer Calibration

As certified observers may tend to experience “drift” in rating accuracy, the district completes a calibration process each year where certification is not required (see chart under *Observer Certification*). This calibration process is completed in years two and three after certification. Calibration ensures ongoing accuracy in scoring teaching practice; an awareness of the potential risk for rater bias; and ensures observers refresh their knowledge of the training and scoring practice. All calibration processes must be conducted through the state approved technology platform.

Required

- ◆ **Observer calibration during years two and three of the Observer Certification process based on the department approved platform.**
- ◆ **Re-certification after year three.**

Local District Decision

- ✓ **Explain processes that the district will use for observer calibration to adhere to the requirements.**
- ✓ **Describe the process for how the district will address the scoring of calibration. (Will the district require additional support for those with a Red or Yellow rating?)**

The district will provide recalibration training in principal and assistant principal sub-groups and PLCs before Oct. 1 each school year. For administrators who have difficulty with consistent scoring during calibration, additional support and training will be provided.

Student Voice

The Student Voice Survey is a confidential, on-line survey collecting student feedback on specific aspects of the classroom experience and teaching practice.

Required

- ◆ **All teachers will participate in the state-approved Student Voice Survey annually with a minimum of one identified group of students.**
- ◆ **Student selection for participation must be consistent across the district.**
- ◆ **Results will be used as a source of evidence for Professional Practice.**
- ◆ **Formative years' data will be used to inform Professional Practice in the summative year.**
- ◆ **All teachers and appropriate administrative staff will read, understand, and sign the district's Student Voice Ethics Statement.**
- ◆ **The Student Voice Survey will be administered between the hours of 7:00 AM and 5:00 PM local time.**
- ◆ **The survey will be administered in the school.**
- ◆ **Survey data will be considered only when ten or more students are respondents.**

Local District Decision

- ✓ **Identify a District Student Voice Survey Point-of-Contact.**
 - ✓ **Identify the process for determining the student group(s) who will participate in the survey.**
 - ✓ **Describe the process for ensuring equal access to all students.**
 - ✓ **Identify the timeline for administration of the state approved Student Voice Survey.**
 - ✓ **Describe process for cases where there are less than ten students.**
 - ✓ **Identify any differences in processes for other professionals or alternative settings.**
-
- ◆ The District Student Voice Survey Point-of-Contact will be the Chief of Data Management/Designee.
 - ◆ The Student Voice Teacher Leader with the assistance of the school TPGES Implementation Team will schedule student groups for the student voice surveys and ensure equal access to all students, with necessary IEP/504 accommodations.
 - ◆ Only one class/section per teacher will participate in the survey, as it fits the school schedule.
 - ◆ Schools will monitor to ensure each student has the opportunity to participate, but no one student is overburdened with surveys on multiple teachers.
 - ◆ The survey will be completed each year by April 30th.
 - ◆ Teachers will only have access to their own student voice survey data.
 - ◆ Principals and assistant principals will have access to all student voice survey data.
 - ◆ Only certified staff members with ten or more students will have student voice survey results, which may be utilized as a source of evidence.
 - ◆ Due to the variations in services provided by other professionals and by teachers in alternative settings, administration of the student voice survey is at the discretion of the employee, in consultation with the supervisor.

Products of Practice/Other Sources of Evidence

Teachers and Other Professionals may provide additional evidences to support assessment of their own professional practice. These evidences should yield information related to the teacher's practice within the domains.

Required

- ◆ **observations conducted by certified supervisor observer(s)**
- ◆ **student voice survey(s)**
- ◆ **self-reflection and professional growth plans**

Local District Decision

- ✓ **Identify other sources of evidence that can be used to support educator practice.**

Teachers may provide additional evidence to support assessment of their own professional practice. The evidence should yield information related to the teacher's practice within the domains of the Kentucky Framework for Teaching. Products of practice/other sources of evidence may include, but are not limited to:

- program review evidence
- team-developed curriculum units
- lesson plans
- communication logs
- timely, targeted feedback from mini or informal observations
- student data records
- student work
- student formative and/or summative course evaluations/feedback
- minutes from PLCs
- teacher reflections and/or self-reflections
- teacher interviews
- teacher committee or team contributions
- student perception/voice survey(s) or data

Student Growth

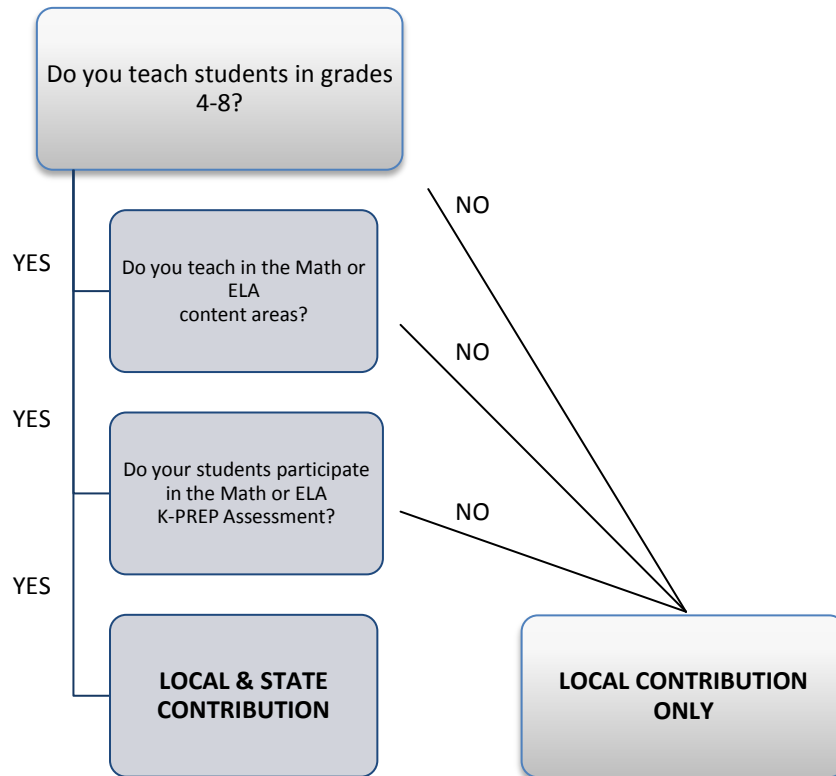

The student growth measure is comprised of two possible contributions: a state contribution and a local contribution. The state contribution pertains only to teachers in the following content areas and grade levels participating in state assessments:

- 4th – 8th Grade
 - ELA/Reading
 - Math

The state contribution is reported as Median Student Growth Percentiles (MSGP).

The local contribution uses the Student Growth Goal Setting Process and applies to all teachers and other professionals in the district, including those who receive MSGP.

The following graphic provides a roadmap for determining which teachers receive which contributions:

State Contribution – Median Student Growth Percentiles (MSGP) – (Math/ELA, Grades 4-8)

The state contribution for student growth is a rating based on each student’s rate of change compared to other students with a similar test score history (“academic peers”) expressed as a percentile. The rating will be calculated using the MSGPs for the students attributed the teacher of grades 4-8 math and ELA classes. The scale for determining acceptable growth will be determined by the Kentucky Board of Education and provided to the district by the Kentucky Department of Education.

Local Contribution – Student Growth Goals (SGG) –All teachers and Other Professionals

The local contribution for the student growth measure is a rating based on the degree to which a teacher or other professional meets the growth goal for a set of students over an identified interval of instruction (i.e. trimester, semester, year-long) as indicated in the teacher’s Student Growth Goal (SGG). All teachers and other professionals will develop an SGG for inclusion in the student growth measure. All Student Growth Goals will be determined by the teacher or other professional in collaboration with the principal and will be grounded in the fundamentals of assessment quality (Clear Purpose, Clear Targets, Sound Design, Effective Communication, and Student Involvement). SGGs should address:

Rigor-congruency to the Kentucky Core Academic Standards

Comparability- Data collected for the Student Growth Goal must use comparable criteria across similar classrooms (classrooms that address the same standards) to determine progress toward mastery of standards/enduring skills. Examples of similar classrooms might be 6th grade science classrooms, 3rd grade classrooms, English 1 classrooms, band or art classes. For similar classrooms, teachers would be expected to use common measures or rubrics to determine competency in performance at the level intended by the standards being assessed. Although specific assessments may vary, the close alignment to the intent of the standard is comparable.

To fulfill the criteria of measuring student growth at the local level, a protocol must be established to ensure rigorous and comparable growth measures used for all teachers.

Required

- ◆ **Identify all criteria for Student Growth Goals.**
- ◆ **All teachers and other professionals will write a Student Growth Goal based on the criteria.**
- ◆ **Protocol for ensuring rigor**
- ◆ **Protocol for ensuring comparability**

Local District Decision

- ✓ **Identify any differences for:**
 - **Other Professionals**
 - **Alternative Settings**
 - **Preschool**

- ✓ Describe an administration protocol for:
 - Identifying the measures used for determining student growth.
 - Ensuring expectations are rigorous and comparable using baseline data to set low, expected and high measurable growth.

JCPS Protocol for Ensuring Rigor and Comparability of Student Growth Goals

The district adopted a rubric that addresses both *rigor* and *comparability* of criteria. Teachers and administrators will apply the rubric to assist them in creating teacher-developed rubrics and SGGs .

Teacher PLC/Grade-Level/Group/Department teams utilize the JCPS Rubric for Student Growth Goals (see below), for assessing the rigor and comparability of each teacher's SGG(s). Teacher teams may consult with district/other support staff/documents to ensure the rubric assesses the following:

- The SGG is congruent with core academic standards and appropriate for the grade level and content area for which it was developed.
- The SGG represents or encompasses an enduring skill, process, understanding, or concept that students are expected to master by taking a particular course(s) in school.
- The SGG will allow high and low achieving students to adequately demonstrate their knowledge.
- The SGG provides access and opportunity for all students, including students with disabilities, ELLs, and gifted/talented students.

Teacher teams (PLC/Grade-Level/Group/Department) will implement a *Peer Review Process* to ensure each teacher's SGG(s) and rubric(s) is/are rigorous and comparable.

Supervisors will approve the teacher-developed and peer-reviewed SGG(s).

The *JCPS Rubric* and *Peer Review Process* will ensure the rigor, comparability, and quality of student growth goals across teachers and classrooms in the district.

Teacher teams (PLC/Grade-Level/Group/Department) will also ensure comparable scoring processes and data collection by collaborating/reaching consensus on:

- What student mastery of the enduring skills looks like using approved scoring measures identified in teacher SGG statements.
- Calibration of scoring, to ensure consistency using the measures/rubrics identified in growth goal statements, in order to determine baseline data, interim growth data, and student progress toward mastery of the identified enduring skills in teacher SGG statements.

OPGES teams who deliver instruction to students will operate using the same process. However, due to the variations in services provided by other professionals and the variance in the amount of regular contact they have with a consistent group of students, how the student growth component is implemented will be collaboratively decided between evaluatee and evaluator.

Determining Growth for a Single Student Growth Goal

Determining Growth for a Single Student Growth Goal (SGG)

The process for determining the result of student growth (high, expected, low) requires districts to explain how they will use rigorous and comparable (see above) goals and assessments for that rating. Districts have several options to consider – none of which are mutually exclusive – for determining student growth.

Required

- ◆ Describe the protocol or process for using multiple sources of data and evidence to determine student growth ratings as low, expected, and high for both growth and proficiency.
- ◆ Describe the protocol or process for using multiple sources of data and evidence to determine student growth ratings as low, expected, and high for other professionals and alternative settings.

Local District Decision

- ✓ Describe the comparable process for combining the growth target and proficiency (when applicable) for determining overall local student growth as high, expected, or low (matrix, assigning of points, etc.)
- ✓ Determine the comparable process that will be used to determine student growth if other professionals or alternative settings do not have a growth and proficiency target.

PROCESS TO IDENTIFY GROWTH AND PROFICIENCY TARGET RATINGS

The proficiency target rating and the growth target rating will be combined for one overall local student growth goal rating. The decision rule charts below provide information on the criteria for the ratings and combined overall local student growth goal rating. *ALL STUDENTS (100%) ARE EXPECTED TO SHOW GROWTH TOWARD AN ENDURING SKILL FOCUSED STUDENT GROWTH GOAL.* Showing demonstrable growth, however, is *not* the same as all students reaching the student growth goal **target**. To keep the SGG *target* meaningful and challenging and not reduce the SGG *target* to something so easy that all children will reach it with minimal effort, a high percentage window (70% - < 85) is used in our SGG target rating matrix.

| GROWTH TARGET RATING | | |
|-------------------------------------|--|--------------------------------------|
| LOW | EXPECTED | HIGH |
| <70% of students meet growth target | 70% - < 85% of students meet growth target | ≥ 85% of students meet growth target |

| PROFICIENCY TARGET RATING | | |
|---|---|----------------------------|
| LOW | EXPECTED | HIGH |
| Does not meet proficiency target within 10% | Meets proficiency target within 10% (of the established target) | Exceeds proficiency target |

Sources and Kinds of Evidence for Determining Student Growth:

Teachers will utilize multiple sources and kinds of evidence to demonstrate student growth by implementing one or more choices, as decided by the teacher, to be reviewed and approved by her/his administrator. Likely sources and kinds of evidence may include, but are not limited to, the use of pre-/post-assessments, running records/repeated measures, analytical/holistic growth rubrics, and/or any combination therein or evidence source that addresses criteria on the JCPS Rubric for Student Growth Goals when the SGGs are developed. Sources of evidence that reach the rigor and comparability criteria can be used as a measure to determine student growth. Three likely categories of measures are described below.

Pre-/Post-Assessments

Teachers may use pre-/post-assessments to determine the student growth identified in the SGG. These assessments can be identical or comparable versions. Assessment used in this option must meet the district assurance of rigor and comparability as defined in the previous section.

Repeated Measures Design

Teachers may maintain a record of results on short measures, demonstrations, and/or performances that allow students to act on the information obtained from each measure, repeated throughout the length of the SGG. These measures will accompany descriptive feedback rather than evaluative feedback, student involvement in the assessment process, and opportunities for students to communicate their evolving learning while the teaching is in progress. The teacher and principal will then look at the pattern across the repeated administrations, illustrating change over time, to determine the growth rating for the SGG. Teachers will not utilize repeated measures on which students may demonstrate improvement over time simply due to familiarity with the assessment.

Holistic Evaluation

Teachers may use peer-reviewed developed, adopted and/or adapted “growth rubrics” for a holistic evaluation designed to compare two or more examples of student work.

Determining Growth for Multiple Student Growth Goals

*[Please complete this section **ONLY** if the district has determined teachers may/shall use multiple local SGG as a part of their local growth contribution.] Only one local SGG shall be used.*

A district-*[developed]* *[adapted]* *[approved]* holistic SGG growth assessment designed to evaluate two SGGs and determine a final rating of high, expected, or low growth.

Local District Decision

- ✓ Describe the comparable process for combining the multiple SGGs for determining overall local student growth as high, expected, or low (matrix, assigning of points, etc.). *Not applicable.*

Determining the Overall Performance Category

Supervisors are responsible for determining an Overall Performance Category for each teacher at the conclusion of the summative evaluation year.* The Overall Performance Category is informed by the educator's ratings on professional practice and student growth. The evaluator determines the Overall Performance Category based on professional judgment informed by evidence that demonstrates the educator's performance against the Domains, district-developed rubrics (see local contribution for student growth), and decision rules that establish a common understanding of performance thresholds to which all educators are held.

Rating Professional Practice

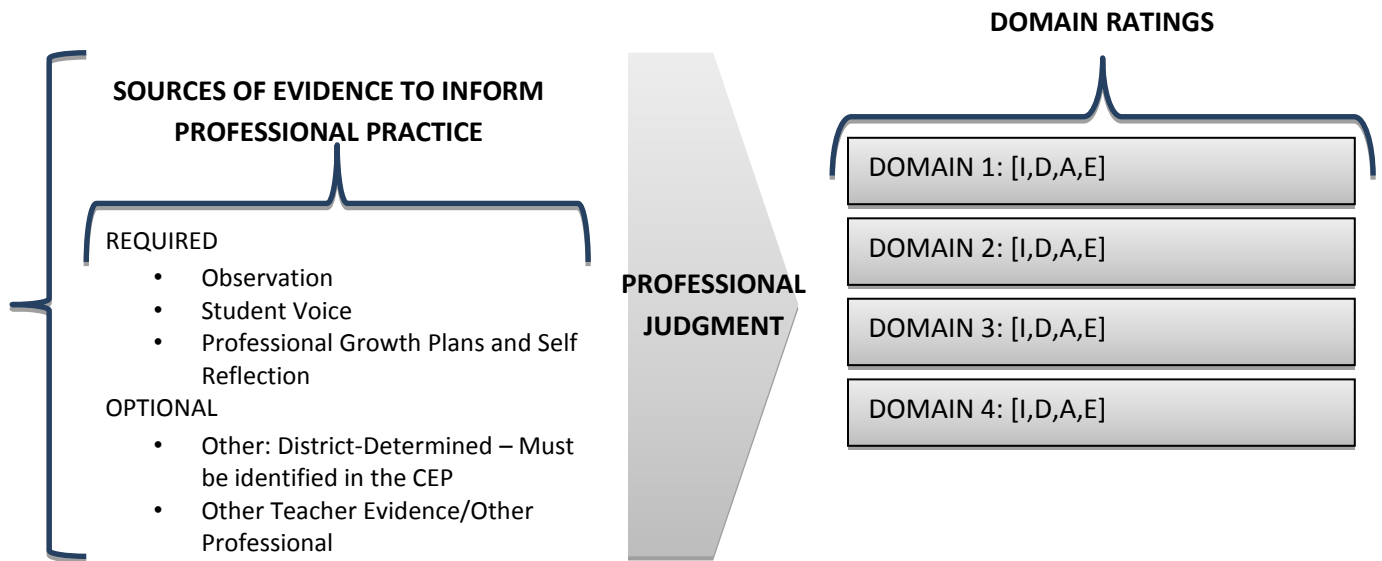

The Kentucky Framework for Teaching stands as the critical rubric for providing educators and evaluators with concrete descriptions of practice associated with specific domains. Each element describes a discrete behavior or related set of behaviors that educators and evaluators can prioritize for evidence-gathering, feedback, and eventually, evaluation. Supervisors organize and analyze evidence for each individual educator based on these concrete descriptions of practice.

The process concludes with the evaluator's analysis of evidence and the final assessment of practice in relation to performance described under each Domain at the culmination of an educator's cycle.

Required

- ◆ Provide a summative rating for each domain based on evidence.
- ◆ All ratings must be recorded in the department-approved technology platform.

**At any time, when significant deficiencies in work performance have been observed, an employee may be placed in Intensive Support, as specified in the JCBE-JCTA labor agreement. At that time, the district-designed process will be instituted which includes a specific timeline for observations, support, and conferences. At the end of the specified timeline, the evaluator will provide a written summary of the conferences to the employee.*

Rating Overall Student Growth

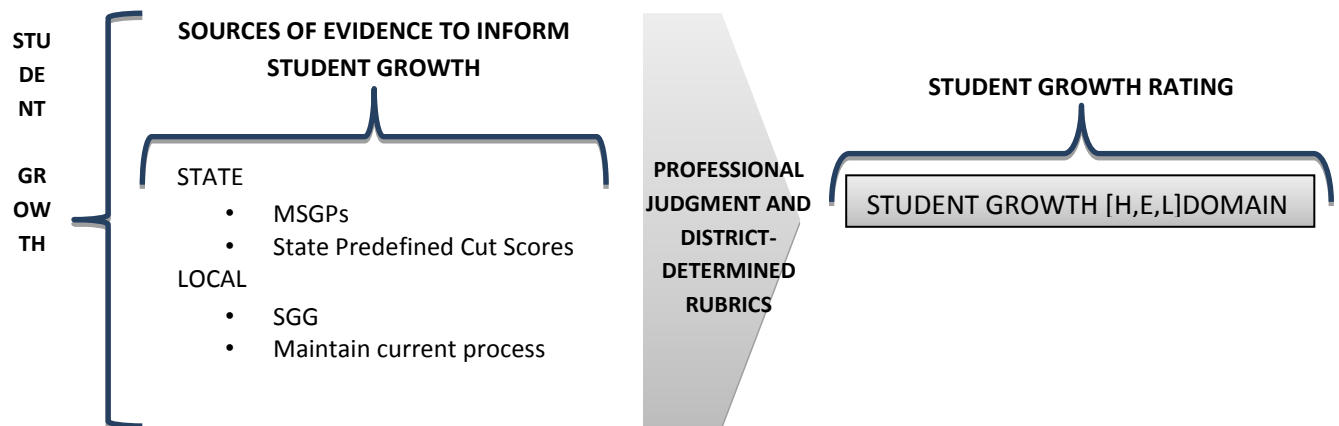

The overall Student Growth Rating is a result of a combination of professional judgment and the district-developed instrument for summative student growth ratings. The designed instrument aids the supervisor in applying professional judgment to multiple evidences of student growth over time. The Student Growth Rating must include data from SGG and MSGP (where available), and will be considered in a three year cycle (when available).

Required

- ◆ SGG and MSGP (when available) will be used to determine overall Student Growth Rating.
- ◆ Determine the process for using up to three years of student growth data (when available) to determine overall Student Growth Rating for teachers.

Local District Decision

- ✓ Describe the process and/or instrument to be used to combine state contribution for teachers that have both Math and ELA MSGP.
- ✓ Describe the process and/or instrument to be used to rate overall student growth as low, expected or high. (*MSGP individual years, Combined 3-year MSGP, Matrix, Average of assigned numbers.*)

| COMBINED LOCAL AND STATE CONTRIBUTION STUDENT GROWTH RATING (Applies only to teachers of Math/ELA grades 4-8) | | |
|--|--|-------------------|
| LOCAL SGG RATING | STATE MSGP RATING (provided by the state) | OVERALL SG RATING |

| | Low | Expected |
| Expected | High | High |
| | Expected | Expected |
| | Low | Expected |
| Low | High | Expected |
| | Expected | Expected |
| | Low | Low |

- ◆ If a teacher has both Math and ELA MGSP scores, the highest of the two ratings will be used to determine MSGP rating.
- ◆ When determining an overall student growth rating, professional judgment will be used. This determination is made in collaboration with the teacher.

Determining the Overall Performance Category

An educator's Overall Performance Category is determined using the following steps:

- ◆ **Determine the individual domain ratings through the use of sources of evidence and professional judgment.**
- ◆ **Apply State Decisions Rules for determining an educator's Professional Practice rating.**
- ◆ **Use Local Student Growth Goal instrument to determine overall Student Growth Rating.**

Principal Professional Growth and Effectiveness System Components

Overview and Summative Model

The following graphic outlines the summative model for the Principal Professional Growth and Effectiveness System.

Evaluators will look for trends and patterns in practice across multiple types of evidence and apply their professional judgment based on this evidence when evaluating a principal. The role of evidence and professional judgment in the determination of ratings on standards and an overall rating is paramount in this process. However, professional judgment must be grounded in the common framework identified: The Principal Performance Standards.

Principal Performance Standards

The Principal Performance Standards are designed to support student achievement and professional best-practice through the standards of Instructional Leadership; School Climate; Human Resource Management; Organizational Management; Communication & Community Relations; and Professionalism. Included in the Performance Standards are Performance Indicators that provide examples of observable, tangible behaviors that provide evidence of each standard. The Performance Standards provide the structure for feedback for continuous improvement through individual goals that target professional growth, thus supporting overall student achievement and school improvement. Evidence supporting a principal's or assistant principal's professional practice will be situated within one or more of the six standards. Performance will be rated for each standard according to the four performance levels: Ineffective, Developing, Accomplished, and Exemplary. It is projected that most principals or assistant principals will maintain an Accomplished rating, but will occasionally have exemplary performance on standards at any given time. The summative rating will be a holistic representation of performance, combining data from multiple sources of evidence across each standard.

The use of professional judgment based on multiple sources of evidence promotes a more holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators will also take into account how principals respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual principal performance. These factors may include school-specific priorities that may drive practice in one standard, an educator's number of goals, experience level and/or leadership opportunities. Contextual variables may also impact the learning environment, such as unanticipated outside events or traumas.

Evaluators must use the following categories of evidence in determining overall ratings:

Required Sources of Evidence

- ◆ **Professional Growth Planning and Self-Reflection**
- ◆ **Site-Visits**
- ◆ **Val-Ed 360°**
- ◆ **Working Conditions Goal**
- ◆ **State and Local Student Growth Goal data**

Evaluators may use the following categories of evidence in determining overall ratings:

- ✓ **Other Measures of Student Learning**
- ✓ **Products of Practice**
- ✓ **Other Sources**

Professional Practice

The following sections provide a detailed overview of the various sources of evidence used to inform Professional Practice Ratings.

Professional Growth Planning and Self-Reflection

Completed by principals & assistant principals

The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including site-visit conferences, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection. Self-reflection improves principal practice through ongoing, careful consideration of the impact of leadership practice on student growth and achievement.

Required:

- ♦ All principals will participate in self-reflection and professional growth planning each year.
- ♦ All assistant principals will participate in self-reflection and professional growth planning each year.

Local District Decision:

- ✓ Explain the timeline for submission of Self-Reflection for principals/assistant principals.
- ✓ Explain the timeline for submission of PGP for principals/assistant principals.
- ✓ Describe how late hires will be addressed.
- ✓ Describe the process the district will use to document the development, approval and monitoring of self-reflection and the professional growth plan.

Administrator and Superintendent/Designee will work together to implement the steps for self-reflection/PGP as indicated on the timeline below.

| Timeline for Self-Reflection/PGP/Site Visits | |
|---|---|
| Timeline | Action |
| First 30 work days | Evaluation criteria and process used to evaluate shall be explained |
| By Oct. 15* | Develop PGP and SGG- Administrator reflects on his/her current growth needs and collaborates with supervisor to develop growth plan. *New hires will complete PGP and SGG within 30 calendar days of employment. |
| Fall semester | Site visit(s), ongoing self-reflection |
| Mid-Year Review | Review progress/reflections on growth and modify plan as appropriate |
| Spring Semester | Site visit(s), ongoing self-reflection |
| By June 1 | Summative reflection and Evaluation – annual summative evaluation submitted for official personnel record, copy provided to employee who may include written response |

Site-Visits

Completed by supervisor of principal – *formal site visits are not required for assistant principals*

Site visits are a method by which the superintendent may gain insight into the principal's practice in relation to the standards. During a site visit, the superintendent will discuss various aspects of the job with the principal, and will use the principal's responses to determine issues to further explore with the faculty and staff. Additionally, the principal may explain the successes and trials the school community has experienced in relation to school improvement.

Required:

- ◆ **Conducted at least twice each year. (Formal site-visits are not required for the assistant principal.)**

Local District Decision:

- ✓ **Identify timeline for site-visits.** *(See Timeline for Self-Reflection/PGP/Site Visits above)*
- ✓ **Describe conference expectations following site visits.**
- ✓ **Describe site-visit connections to Principal Performance Standards.**
- ✓ **Describe how late hires will be addressed.**
- ✓ **Describe how the evidences of site-visits will be documented.**
- ◆ Site-visits conducted twice during the instructional year, regardless of hire date.
- ◆ During the post-visit conference professional growth plan progress, evidence toward Principal Performance Standards, as well as student growth goal monitoring will be reviewed.
- ◆ The template, adapted from the form provided by the state, will be used during the conferences and mid-year review to guide and document the reflections and any modifications to the plan.

Val-Ed 360°

Completed for principals – *not completed for assistant principals*

The VAL-ED 360° is an assessment that provides feedback on a principal's learning-centered behaviors by using input from the principal, his/her supervisor, and teachers. All teachers will participate in the Val-Ed 360°. The results of the survey will be included as a source of data to inform each principal's professional practice rating.

Required:

- ◆ **Conducted at least once every two years in the school year that TELL Kentucky is not administered.**

Local District Decision:

- ✓ Identify a point of contact for overseeing and administering Val-Ed 360°.
 - ✓ Identify the frequency of Val-Ed 360° administration.
 - ✓ Identify the timeline for administration of Val-Ed 360°.
 - ✓ Describe how Val-Ed 360° results will be used.
 - ✓ Identify who will have access to Val-Ed 360°.
 - ✓ Describe how late hires will be addressed.
- ◆ Director of Administrator Recruitment & Development will oversee the administration of Val-Ed 360° in the year opposite the administration of the TELL survey.
 - ◆ The Val-Ed Survey will be administered once per year in the Spring, in the years that it is administered, and completed by April 1.
 - ◆ Val-Ed 360° results will be analyzed by the principal and supervisor.
 - ◆ The Superintendent, Chief Academic Officer, Assistant Superintendents, and Director of Administrator Recruitment & Development will also have access to Val-Ed 360° results.

Working Conditions Goal

Goal inherited by Assistant Principal

Principals are responsible for setting a two-year Working Conditions Growth Goal based on the most recent TELL Kentucky Survey. The principal's effort to accomplish the Working Conditions Growth Goal is a powerful way to enhance professional performance and, in turn, positively impact school culture and student success.

Required:

- ◆ Developed following the completion of the TELL Kentucky Survey.
- ◆ Minimum of one two-year goal.

Local District Decision:

- ✓ Identify the number of Working Conditions Goals that will be required.
 - ✓ Describe the process used to establish the Working Conditions Goal rubric.
 - ✓ Describe how a mid-point review will be conducted.
 - ✓ Identify any additional surveys or evidence that will be used to inform the Working Conditions Goal(s).
 - ✓ Describe how the evidences of the Working Conditions Goal will be documented.
- A minimum of one Working Conditions Goal will be developed in collaboration with the supervisor of the principal.
 - The Working Conditions Goal template will be used to guide mid-point review.
 - Additional surveys and/or evidence may be used to inform the Working Conditions Goal.

| Working Conditions Growth Goal Ratings | | |

Products of Practice may include, but are not limited to:

- ✓ SBDM Minutes
- ✓ Faculty Meeting Agendas and Minutes
- ✓ Principal and/or school PLC Agendas and Minutes
- ✓ Delivery Planning
- ✓ CSIP
- ✓ Department/Grade Level Agendas and Minutes
- ✓ Leadership Team Agendas and Minutes

Student Growth

The following sections provide a detailed overview of the various sources of evidence used to inform Student Growth Ratings. At least one of the Student Growth Goals set by the principal must address gap populations. Assistant principals will inherit the SGG (both state and local contributions) of the Principal.

State Contribution

ASSIST/Next Generation Learners (NGL) Goal Based on Trajectory - *Goal inherited by Assistant Principal*

Principals are responsible for setting at least one Student Growth Goal that is tied directly to the Comprehensive School Improvement Plan located in ASSIST. The superintendent and the principal will meet to discuss the trajectory for the goal and to establish the year's goal that will help reach the long-term trajectory target. New goals are identified each year based on the ASSIST goals. The goal should be customized for the school year with the intent of helping improve student achievement and reaching the long term goals through on-going improvement.

Required:

- ◆ Selection based on ASSIST/NGL trajectory.
- ◆ Based on Gap population unless local goal is based on Gap population.

Local District Decision:

- ✓ Describe process for determining interim trajectory goals.
- ✓ Describe process for determining high, expected, low growth.

Local Contribution

Based on School Need - *Goal inherited by Assistant Principal*

The local goal for student growth should be based on school need. It may be developed to parallel the State Contribution or it may be developed with a different focus.

Required:

- ◆ Based on gap population unless State goal is based on Gap population.

Local District Decision:

- ✓ Identify the number of local goals for principal
- ✓ Describe process to develop local goals.
- ✓ Describe process for determining high, expected, low growth.
 - Describe process for determining high, expected, low growth if multiple local student growth goals are required.

Each Principal will create a minimum of one local growth goal, developed in collaboration with, and approved by, his/her supervisor. The process of determining high, expected, or low growth will be set by the superintendent or designee and the principal.

| Principal and Assistant Principal State and Local Student Growth Goal Rating Rubric (Applies to Gap and Non-Gap Goals) | | |
|---|--|--------------|
| LOW | EXPECTED | HIGH |
| Does Not Meet Goal or Progress Is Less Than 50% Growth/Gain Towards Goal | Meets Goal or Shows at Least 50% Growth/Gain Toward Goal | Exceeds Goal |

Determining the Overall Performance Category

Superintendents/designees are responsible for determining an Overall Performance Category for each principal at the conclusion of their summative evaluation year.* The Overall Performance Category is informed by the principal’s ratings on professional practice and student growth.

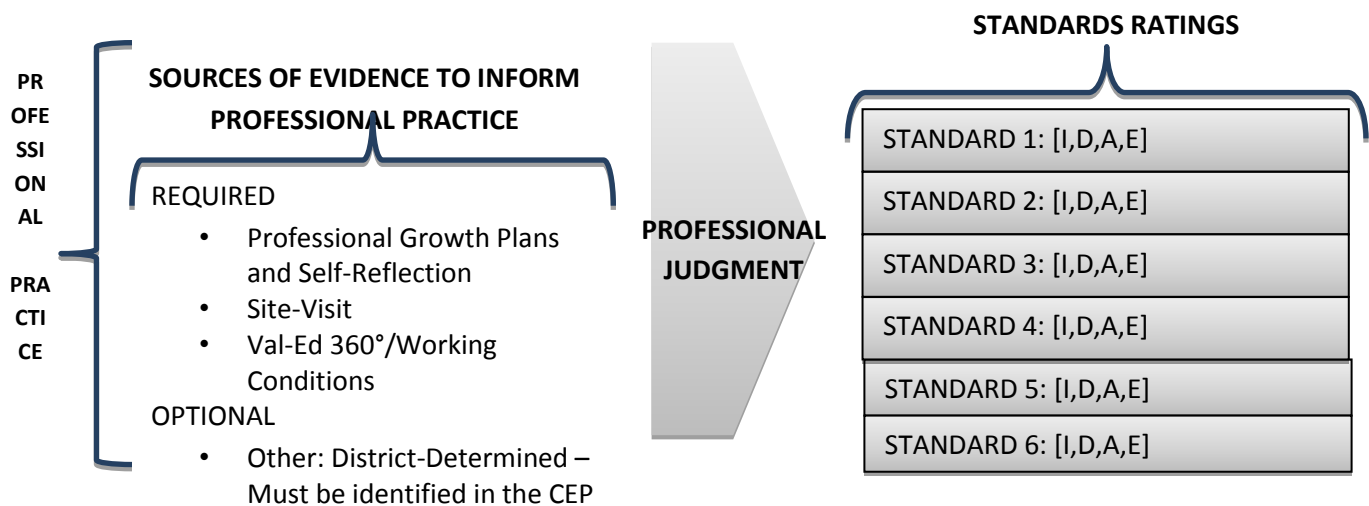

Rating Overall Professional Practice

Required:

- ◆ Use decision rules to determine an overall rating.
- ◆ Record ratings in the department-approved technology platform.

Local District Decision:

- ✓ Describe timelines for rating professional practice.

- ◆ Professional practice ratings will be discussed during site visits. Evidence and feedback for professional practice ratings will occur at each site visit, and at the midyear growth plan reflection meeting.

**At any time, when significant deficiencies in work performance have been observed, an employee may be placed in Intensive Support. At that time, the district-designed process will be instituted which includes a specific timeline for observations/site visits, support, and conferences. At the end of the specified timeline, the evaluator will provide a written summary of the conferences to the employee.*

A principal's/assistant principal's Overall Performance Category is determined by the evaluator based on the principal's ratings on each standard, as well as student growth. Using the sources of evidence for principals/assistant principals, evaluators will use professional judgment to determine a rating for each standard. Next, the evaluator will use the following decision rules for determining the Professional Practice Category:

Determining Professional Practice

- ◆ **Apply the State Decision Rules for determining an Overall Professional Practice Rating.**

CRITERIA FOR DETERMINING A PRINCIPAL OR OTHER BUILDING-LEVEL ADMINISTRATOR'S PROFESSIONAL PRACTICE RATING

| IF... | THEN... |
|---|--|
| Principal or other building level administrator is rated Exemplary in at least four of the standards and no standard is rated Developing or Ineffective | Professional Practice Rating shall be Exemplary |
| Principal or other building level administrator is rated Accomplished in at least four of the standards and no standard is rated Ineffective | Professional Practice Rating shall be Accomplished |
| Principal or other building level administrator is rated Developing in at least five standards | Professional Practice Rating shall be Developing |
| Principal or other building level administrator is rated Ineffective in two or more standards | Professional Practice Rating shall be Ineffective |

Rating Overall Student Growth

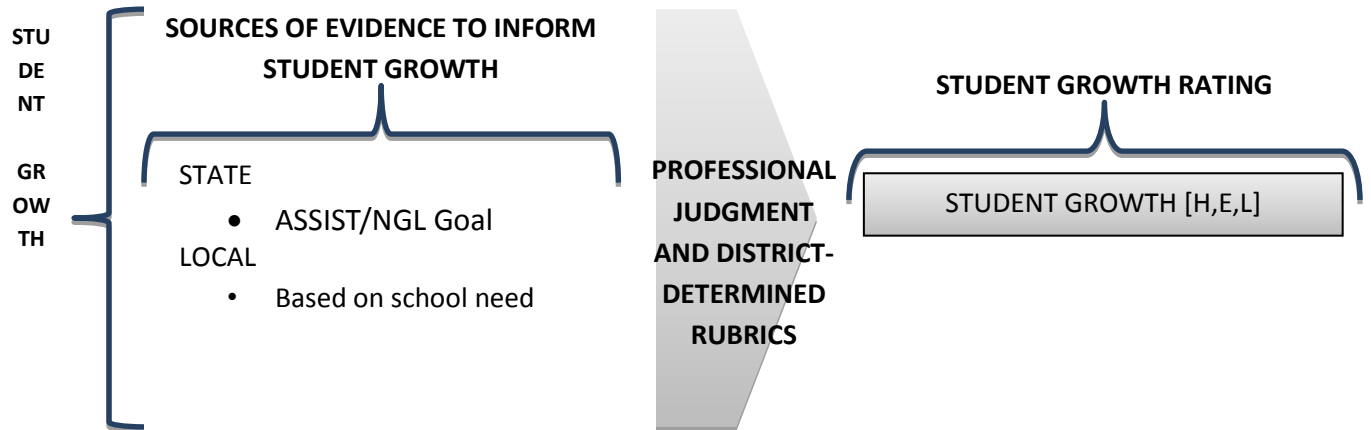

Overall Student Growth Rating results from a combination of professional judgment and the district-developed instrument. The instrument is designed to aid the evaluator in applying professional judgment to multiple evidences of student growth over time. Student growth ratings must include data from both the local and state contributions.

Required:

- ◆ **Determine the rating using both state and local growth.**
- ◆ **Determine the rating using multiple years of data up to 3 years (when available).**
- ◆ **Record ratings in the department-approved technology platform.**

Local District Decision:

- ✓ Describe the process used to rate student growth including both state and local contributions.

Districts will determine the process for determining the rating for High, Expected, and Low growth. Supervisors will use a Local Student Growth Goal instrument to determine overall Student Growth Rating. How will 3 years of data be used if available?

| PRINCIPAL AND ASSISTANT PRINCIPAL COMBINED STUDENT GROWTH RATING | | |
|--|------------------------------|-------------------|
| LOCAL SGG RATING | STATE ASSIST/NGL GOAL RATING | OVERALL SG RATING |
| High | High | High |
| | Expected | High |
| | Low | Expected |
| Expected | High | High |
| | Expected | Expected |
| | Low | Expected |
| Low | High | Expected |
| | Expected | Expected |
| | Low | Low |

- ◆ When determining an overall student growth rating, professional judgment will be used. This determination is made in collaboration with the principal/assistant principal.

Determining the Overall Performance Category Decision Rules Matrix

A principal’s/assistant principal’s Overall Performance Category is determined by the evaluator based on the principal’s ratings on Professional Practice and Student Growth. Next, the evaluator will use the following decision rules for determining the Overall Performance Category.

- ◆ **Apply State Overall Decision Rules for determining a principal’s/assistant principal’s Overall Performance Category.**

Required

- ◆ **All summative ratings must be recorded in the department-approved technology platform.**

CRITERIA FOR DETERMINING A BUILDING LEVEL ADMINISTRATOR’S OVERALL PERFORMANCE CATEGORY

| PRINCIPAL AND ASSISTANT PRINCIPAL OVERALL PERFORMANCE CATEGORY | | |

| | Low | Developing |
| INEFFECTIVE | High | Ineffective |

INSTRUCTIONS FOR EVALUATION OF DISTRICT LEVEL ADMINISTRATORS AND OTHER CERTIFIED DISTRICT PERSONNEL

I. Purpose

The job performance evaluation is designed to be a growth-oriented process to meet the following objectives:

- A. promote improved job performance and job satisfaction,
- B. recognize employees whose performance warrants commendation,
- C. identify employees who need assistance, and
- D. establish documentation for personnel action.

II. The Evaluation Process and Instructions

- A. An annual, formal, written summative evaluation of the performance of all administrative personnel will normally be completed near the end of the academic year.
- B. The evaluation will be made by the supervisor to whom the administrator reports as indicated in the administrator's current job description.
 - 1. Near the beginning of the work year, a pre-observation conference is to be held with each administrator to discuss job expectations and applicable evaluation criteria, forms and procedures. The conference is to be summarized on the Formative Evaluation Form E-2.
 - 2. A Professional Growth Plan (a plan for personal professional growth related to the assignment or to characteristics of effective leadership and the criteria for assessing the degree to which progress is made), which the administrator has helped develop, is to be established for each administrator during the year.
 - 3. The Professional Growth Plan may be either for professional enrichment or for professional skill growth. The evaluative criteria or characteristic of effective leadership in which growth is desired, the specific performance objective/desired outcome, the procedures/strategies for reaching the objective, the method for appraising when the objective is reached, and the timelines/target dates for reaching the objective or parts of the objective are to be clearly stated in narrative style on the Growth Plan Form G.
 - 4. At mid-year, a conference will be held to identify strengths and areas needing improvement and to review performance standards, objectives, and progress on the Growth Plan. The conference is to be summarized on Formative Evaluation Form E-2 (properly checked in upper left corner).

- C. When the supervisor determines that there is sufficient discrepancy between the administrative standards (JCPS policies and/or State procedures), the job description, and the administrator's performance, the Intensive Support process will be initiated, insuring that due process procedures are followed.
1. The Intensive Support process is initiated by the supervisor based on administrative standards and responsibilities outlined in the job description. The supervisor will have a conference with the administrator to identify substandard performance in writing and discuss significant deficiencies. Deficiencies and suggested corrective action will be noted in writing. Form A will be completed to document this conference.
 2. The supervisor will assign two (2) qualified, professional staff members with evaluative authority to assist the administrator during the Intensive Support period.
 3. The evaluators will conduct a conference with the administrator within the first ten (10) days of the Intensive Support period. During this conference, a process will be determined by the team to address the areas of concern as outlined in Form A. Form E-2 will be completed to document this conference. Another conference will be conducted before recommendations are made available to the supervisor. The administrator or the evaluators may request additional conferences between the initial conference and the final conference. Such requests will be honored and conferences will be documented on Form E-2.
 4. It is expected that support for the administrator during the Intensive Support process could come from a collegial team or from sources of the administrator's choosing. Support will be provided to the administrator to improve in areas that are identified as deficient.
 5. Recommendations will be made by the evaluators within twelve (12) weeks of the initial conference. Depending on the nature of the deficiency, recommendations may be for a resumption of the normal evaluation process, an extension of time for the Intensive Support process or disciplinary action up to and including demotion or termination. The supervisor will complete the summative evaluation, utilizing Form A.2.
 6. Confidentiality will be maintained within the bounds of statutes and regulations pertaining to professional evaluation.
- D. A conference is to be held to discuss the summative evaluation, documented on Form A.2, when it is received by the administrator, focusing on strengths and areas needing improvement.
- E. Evaluation forms are to be completed in triplicate--one(1) form retained by the evaluator, one(1) form to the administrator, and one(1) form for inclusion in the personnel file forwarded first to the appropriate department head for review. The evaluation will be

used for job-related purposes such as commendations, promotions, improvement of performance, reassignment, retention, demotion, or other appropriate personnel action.

III. Review and Appeal Instructions

- A. All deficient work performance evaluations are to be reviewed by the unit director/school center head/or next in authority relationship, before presentation to the administrator to ensure that:
 - 1. Evaluations are based upon job performance and related activities,
 - 2. Any deficiencies noted have been brought to the attention of the employee and supporting documentation is available, and
 - 3. The instructions in the evaluation process have been followed.
- B. All unsatisfactory evaluations used as a basis for discharge/demotion of an administrator are to be submitted to the appropriate department head for informational purposes.
- C. Evaluations with a recommendation of RETENTION are to be reviewed by the next higher supervisor to ensure that performance of all employees is properly reported and that evaluations within the department are consistent.
- D. An administrator may submit a written response within ten (10) days of the receipt of the evaluation to Personnel Services. The response is to be attached to the evaluation.
- E. An administrator may appeal an evaluation through the JCPS Local Evaluation Appeal Panel (LEAP) according to the procedures set forth in the JCPS Certified Evaluation Plan.

- Once the 3-member panel is constituted, the LEAP shall select a chairperson.

Appeals Procedure

All certified school personnel shall receive written notice of their right to appeal, including applicable deadlines and the right to request a hearing, at the time summative evaluation results are provided to the certified school personnel.

1. Certified personnel shall have the right to appeal to a LEAP within fourteen (14) calendar days after receiving a summative evaluation. The LEAP will have no jurisdiction unless an appeal is filed with the LEAP. Appeals must be submitted in writing to the superintendent/designee.
2. If an employee chooses to appeal an evaluation via a LEAP, the employee shall not be eligible to grieve the evaluation.
3. If an employee chooses to grieve an evaluation, the employee shall not be eligible to appeal the evaluation via a LEAP and the contractual timeline for grievances must be followed.
4. Appeals to a LEAP may be based upon evaluation process or evaluation content concerns.

5. The superintendent/designee must take appropriate action consistent with the Appeal Panel's decision.
6. The decision of the LEAP shall be given in writing to both the appellant and the evaluator within thirty (30) calendar days from receipt of appeal by the superintendent/designee.
